## CONTENT:

Every year in April, “Arbor Day” is celebrated worldwide. And for good reason, because trees are not only indispensable for the climate, oxygen production and erosion control, but have also inspired people for thousands of years, for example through the peace and stability they radiate. “Arbor Day” is indeed a “holy-day” that we would like to celebrate together with you. We therefore cordially invite you to plant several trees with us, which will delight and provide for people and animals in various ways for many decades to come. We will demonstrate grafting, root and crown trimming and talk about bees. Children are welcome.
